LIMITED WARRANTY

REV.EN20230715-LINEAR-BIFACIAL MODULE

P_{1st year}, %

P_{1st year}, % represents the amount of power that the module will produce in the first year of its life. It is expressed as a percentage of the module's rated power (P₁) = 100%.

P_{N year}, %

P_{N year}, % represents the amount of power that the module will produce in the Nth year of its life. It is expressed as a percentage of the module's rated power (P_N) = P₁ × (1 - L₁)^{N-1}.
With N, 2 ≤ N ≤ Limited Power Warranty Period

1.2 Limited Product Warranty

Good quality and performance are essential for the long-term operation of the solar module. The module is designed to meet the requirements of the IEC 61215 and IEC 61730 standards. The module is tested under standard test conditions (STC) and is guaranteed to produce the rated power for the first year of its life. The module is tested under standard test conditions (STC) and is guaranteed to produce the rated power for the first year of its life.

1.3 Limited Power Warranty

Good quality and performance are essential for the long-term operation of the solar module. The module is designed to meet the requirements of the IEC 61215 and IEC 61730 standards. The module is tested under standard test conditions (STC) and is guaranteed to produce the rated power for the first year of its life. The module is tested under standard test conditions (STC) and is guaranteed to produce the rated power for the first year of its life.

2. Warranty Claim and Remedies

2.1 Warranty Claim

a. Claim procedure: The claimant must provide evidence of the defect and the date of discovery. The claimant must provide evidence of the defect and the date of discovery. The claimant must provide evidence of the defect and the date of discovery. The claimant must provide evidence of the defect and the date of discovery.
